MAKE IT A RED CROSS CHRISTMAS IS PLEA

This will be our first Christmas in the world war—make it a Red Cross Christmas. What does that mean? It means give generously to the Christmas fund of that humane organization, help it by lending your names, your energy to its growth. Could there be a better way of showing your faith and hope in your government than by helping it do its works of love and mercy to all suffering mankind?

Remember this is not a local or an ephemeral affair; it is practically a branch of your government. Although not yet federalized, it is recognized by law and international convention as the public instrument for alleviating want, suffering, distress of all kinds. The president of our United States is the president of the American Red Cross. You hit the enemy a blow from which he will not recover when you oversubscribed your Liberty Loan. Hit him another blow through the Red Cross.

The two funds are directed through different channels, but each is as necessary as the other. You have not done your duty, helped your government to your fullest extent, when you have not donated generously to this merciful organization. It is inevitable that war bring some privation, some sacrifice to all. Make your sacrifice by giving to this national organization which carries under the flag of the Red Cross such unlimited opportunities for broad humanitarian service.

SHIELDS-WATER BILL PASSED BY SENATE

(By Associated Press.) WASHINGTON, Dec. 14.—The senate today passed the Shields-water power site leasing bill. It was agreed to abandon attempts to make the oil lands leasing bill apply to the naval reserve in California and Wyoming and preserve these lands intact for naval use, in an effort to hasten the passage. Both measures will unlock natural resources vital to the country in the prosecution of the war. The house passed the \$333,000,000 post office bill.

GERMAN BREAD.

(By Associated Press.) PARIS, Dec. 14.—Slices of bread found on board the Zeppelin brought down at Bourneville-Bains were shown at a meeting of the Academy of Agriculture. The officers' bread contained 10 per cent of Java rice, which, it was stated, must have reached Germany through Holland.

MINING PROGRESS.

(By Associated Press.) WASHINGTON, Dec. 14.—Van H. Manning, director of the bureau of mines, in his annual report made public last night, says such rapid strides are being made toward developing within the United States sources of potash, nitrate, iron pyrites for manufacturing sulphuric acid, and manganese that it may soon be possible to reduce the importation of these commodities and release ship tonnage for other war work.

She is said to be well connected in St. Louis.

BIG LEAGUE TO KEEP LIMIT OF 23 PLAYERS

CHICAGO, Dec. 14.—Retention of the 23-player limit and continuation of the annual spring training trips was decided upon at the closing session of the American league meeting here last night. The club owners cleared up these points in preparation for the joint meeting with the National leaguers here today.

Summarized, the important questions to be considered by the sixteen club owners of the two leagues are: The advisability of reducing the playing schedule to 140 games. The advisability of a 154-game schedule running only five and a half months.

Revising a method to collect the federal war tax. Settlement of the financial conditions resulting from the Federal league war. Suggestion of a new division of the world series receipts. SPRECKLES SAYS THERE IS NO SUGAR SHORTAGE

(By Associated Press.) WASHINGTON, Dec. 14.—President Spreckles of the Federal Sugar Refining company, testifying before the senate investigating committee today, declared: "There is no shortage of sugar in the United States except in spots."

He placed responsibility for conditions on the food administration. He said: "We adhered to the agreement with the administration to pay a certain price for raw sugar, and the product normally imported went abroad because of better prices to be obtained. We were forced to close refineries because of the lack of supplies."

Spreckles said that Hoover's international sugar committee fixed a price that enabled Pacific refiners to operate at an advantage over the easterners.

SICKNESS DECREASES IN THE GERMAN ARMY

(By Associated Press.) COPENHAGEN, Dec. 14.—The health statistics of the German army and navy, as published in the German medical journals, show that the percentage of illness among both soldiers and sailors is steadily decreasing. In the army, the number of cases of illness is now about 20 per cent lower than in the first year of war. For the navy, very complete reports are published, indicating that the number of cases of illness per thousand men is about 25 per cent lower than in peace time. "Disease of the organs of nutrition" furnish more patients in the naval hospitals than any other single cause, but it is stated that the number even of these cases shows a steady improvement, falling from 78 per 1000 men in peace times to 56. Tuberculosis shows a slight increase but other diseases of the respiratory organs have decreased very largely. Nervous disease has decreased slightly; diphtheria has almost disappeared; scarlet fever shows a slight increase.

AMUSEMENTS

TWO FEATURES AT THE BUTLER

There will be a double bill shown at the Butler this evening. Gladys Brockwell, the celebrated emotional actress, in Wm. Fox's latest photoplay, "Conscience," and our old friends, William Duncan and Carol Holloway, in "The Fighting Trail." Miss Brockwell, who has been called "The girl of a thousand expressions," has, in "Conscience," an excellent opportunity to show her versatility. The story shows Ruth Somers, the reincarnation of a fallen spirit, on earth Ruth is about to marry the wealthy Cecil Brooks when she gets a message that she not marry Cecil. Ruth's conscience then brings to her pictures of her heart-breaking, deceitful acts. These pictures, many of which are shown aboard a yacht, are enacted by Ruth at the Court of Conscience. She portrays Ambition, Avarice, Revenge, Lust, Untruthfulness. Finally she brushes Conscience aside and is about to marry Cecil Brooks when Ned appears. She scorns him. Cecil leaves her and she falls on her knees and begs forgiveness. It is a wonderful portrayal of a story that is vastly different. The other feature is the eighth number of "The Fighting Trail," in which one of the wildest horseback rides ever filmed is shown. One misstep in this wild race would mean death. Physical bravery of the highest type is necessary for the participants of this thrilling photoplay. Dangers of every description are met with in every number as the great story unfolds.

Tomorrow, Enid Bennett, in a race track drama, "They're Off," and Charlie Chaplin in a two-reel Mutual comedy, making another seven-reel program.
